Technetix part CL50-RJ45IECM

Compatible with 55x55 standard frames for electrical outlets of various vendors

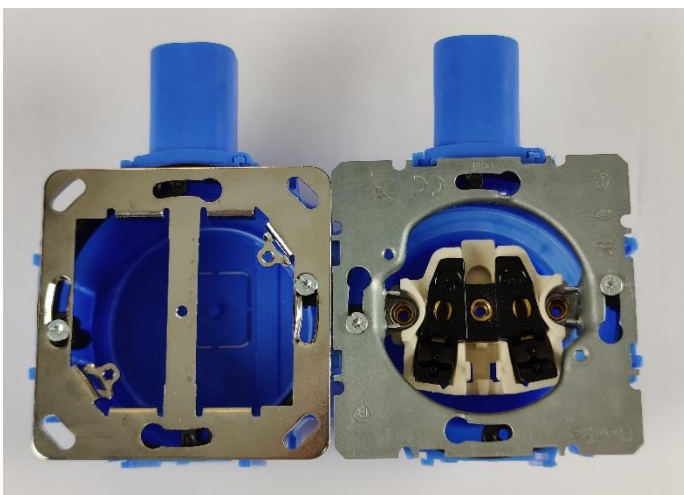

QUICK INSTALL

Take the faceplate and metal frame from the main module.

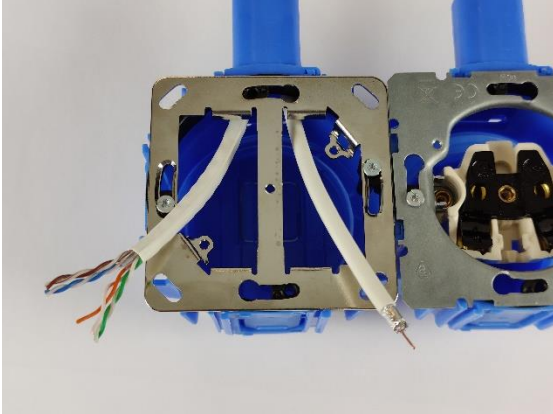

Place the metal frame in the backbox (and install the electrical outlet when applicable).

Pull the CAT-cable through the left socket and the coaxial cable through the right socket (+/- 15 cm)

Install the CAT cable into the CAT6 module according to color scheme B (module has internal cross wiring)
EASY INSTALL TIP: Do it color pair by color pair and press the lid after every pair to make it easier

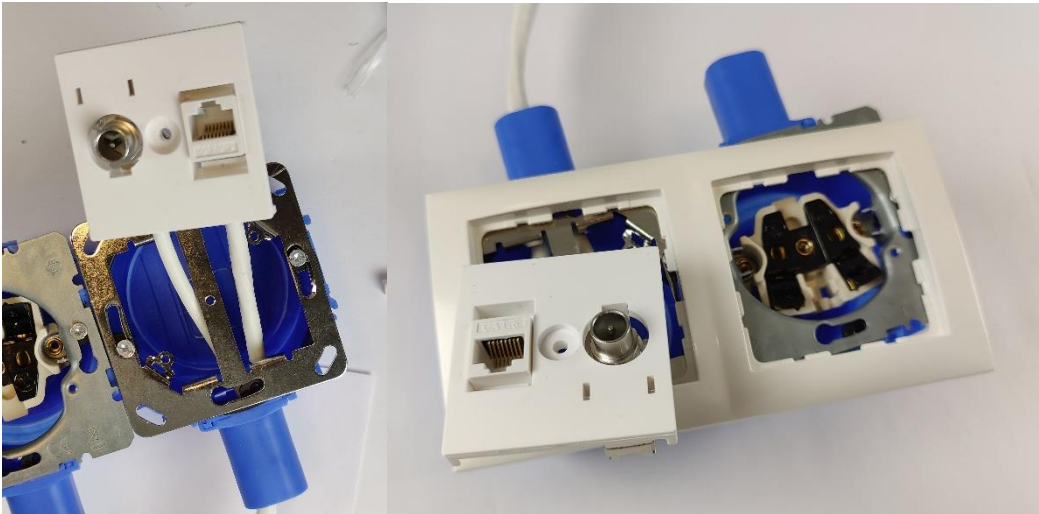

Cut the coaxial cable according to the instruction, then Install the coaxial cable in the module
Screw the module to hold the cable – make sure it's fully screwed down.

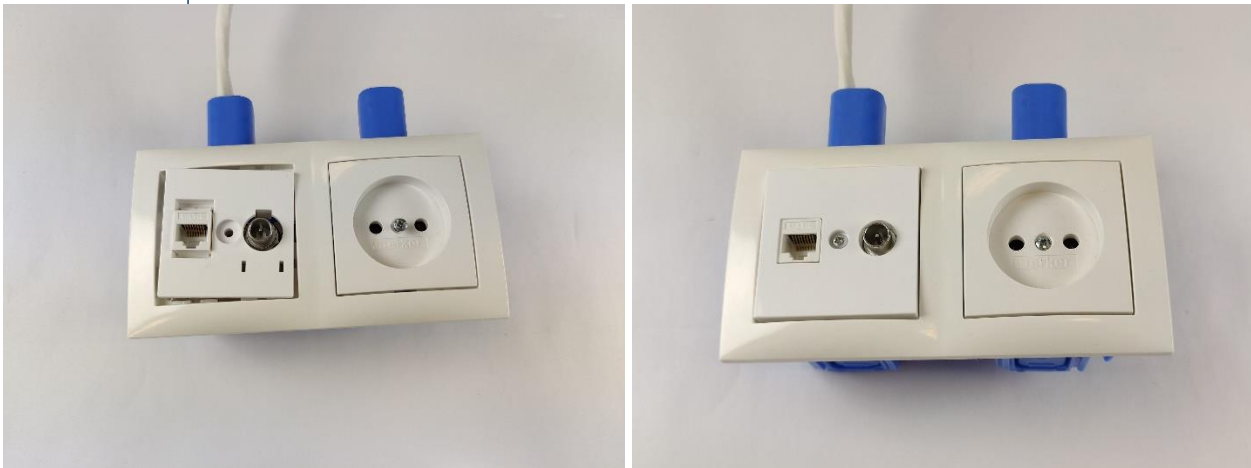

Place the frame over the metal frames

Install the faceplate over the frame.
