

UST-185 - Mini Coax Cable Stripping Tool - Data Sheet

The UST-185 mini coax cable stripper is specifically designed to provide a ¼"x ¼" two step strip on dual and quad shield mini coax cables. This tool works on Belden, Commscope, Times Fiber and other mini coax cables. The unique blade design has blades setup for Dual shield on one side and Quad shield on the other. Blade is capable of over 5000 strips.

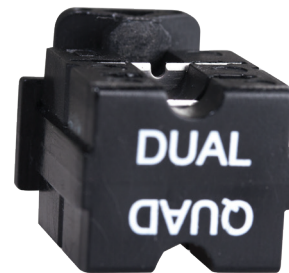

Replacement blade part no. UST-230

Simple to use:

- Select which side of blade is required and if necessary remove cartridge turn over and reinsert into tool.
- Squeeze the tool jaws open and insert the cable to the blade stop and allow jaws to close
- Holding the cable in one hand and the tool in the other, rotate the tool around the cable several times
- Remove the tool and then pull the jacket off the cable.
